Notes:
- New cases since last business day. Monday's data includes weekend data. Δ% refers to percentage change since last business day. Fatality rate measured as deaths per confirmed infections.

2/ As new data is recorded on business days only, Monday's data includes weekend data. For ease of comparison, ΔNew Cases for Monday's data is based on the 3-day Saturday-Monday average.

3/ Recovery rate is a proxy for the stage of the cycle.
