Statistics

- **Worldwide** confirmed cases **surpassed 7.5 million**, with more than **421,000 confirmed deaths**.
- In **Lao PDR**, no active cases remain as the **last patient has been discharged** from the hospital. Lao PDR had a total of 19 confirmed cases and no recorded deaths. No new cases have been recorded since mid-April.
- **Thailand** did **not report any new cases** yesterday, the first time in almost three weeks. It has gone more than two weeks without local transmission.
- **Korea** confirmed **56 new cases yesterday**, pushing the total number of cases to more than 12,000. Daily new cases have remained in the double-digits since early May when new cases had slowed to single-digits.
- In the **United States**, more than **2 million cases** have now been confirmed. **Brazil** has confirmed **more than 800,000 cases**; **Russia** more than **500,000**. **India** is now the world’s fourth most affected country with **almost 300,000 confirmed cases**.

News

- In **China**, the **first locally transmitted case in Beijing since mid-April** has been reported. The patient’s family members were isolated and his residential compound closed. It remains unclear how the man became infected as he said he had not left Beijing in the last two weeks and had not been in touch with anyone from outside the city.
- In **Japan**, **Tokyo has lifted its virus alert** and is set to move into the next and final phase of its reopening plan.
- **Vietnam** is preparing to resume international flights to safe destinations which could include China, Korea, Japan and Lao PDR, with the first flights expected in early July.
## Overview of Confirmed COVID-19 Cases
