COVID Monitor

Friday, June 26, 2020

Statistics

- Worldwide cases stood at 9.6 million yesterday, of which around 489,000 people have died.
- The United States saw record-high new infections in a single day yesterday, with 40,740 additional cases. Some US states have now ceased plans to reopen.
- In the ASEAN+3 region, 2,227 new cases were reported yesterday, higher than the new case reports of the previous day, and mostly within the ASEAN.
- Newly confirmed cases in Japan and Korea remain in the double-digits. Japan reported 92 new infections yesterday, while Korea recorded 39 new cases. These are higher than reported by both economies in the previous day.
- Indonesia has topped the 50-thousand mark of confirmed cases yesterday, after recording 1,178 new infections. With yesterday as the fifth-straight day of increase, the country’s total cases stand at 50,187. Capital Jakarta and East Java lead these numbers.
- The Philippines reported 778 new COVID-19 cases yesterday, inching back up after 470 new cases the previous day. Accounting for half of yesterday’s new cases, Metro Manila remains the hardest hit region. The country’s confirmed infections currently stand at 33,069.

News

- Singapore’s Minister for National Development said in a press conference yesterday that about 70 to 80 percent of migrant workers residing in dormitories are expected be free of COVID-19 by the end of July.
- Japan partially resumed international flights for business travellers yesterday with a chartered plane to Vietnam. This marks the first such entry since both economies agreed to mutually ease restrictions last week. Travelers upon arrival in Vietnam are required to undergo COVID-19 tests and a 14-day quarantine.
- The Philippines’ central bank cuts its key interest rate by 50 basis points in a surprise move yesterday. The move is expected to support the economy, which is forecast to contract this year. The interest rate on its overnight reverse repurchase facility currently stands at a record-low of 2.25 percent.
