COVID Monitor

Thursday, November 26, 2020

Statistics

- **Worldwide** confirmed cases **surpassed 60 million**.
- **11,693 new cases** were reported across the **ASEAN+3 region** yesterday, for a total of more than 1.4 million confirmed cases.
- **Indonesia** reported a **record spike of 5,534 new cases**. In total, 511,836 cases have been confirmed so far.
- **Korea** reported **583 new cases**, the highest daily increase since early March.
- **India** reported **44,489 new cases**, at a similar level than previous days. While daily tallies have dropped from its mid-September peak, new cases have remained at levels around or above 40,000 a day on average. Total confirmed cases reached close to 9.27 million, the second largest in the world after the United States.
- **More than 181,000 new cases and 2,227 deaths** were reported in the **United States**, the second day in a row with more than 2,000 deaths.

News

- **China** and **Japan** have agreed to **launch a fast-track lane for business travellers from November 30**. The agreement will allow travellers on business trips to engage in limited activities and forgo their 14-day quarantine period.
- China National Pharmaceutical Group Sinopharm has submitted an application for regulatory approval of a Covid-19 vaccine to the country’s National Medical Products Administration. Sinopharm has been running Phase 3 trials in over 10 countries for two Covid-19 vaccines and received emergency approval earlier. It is not clear which of the candidates would be reviewed. No serious adverse events have been reported, as efficacy data has not been published.
- As some countries in Europe are easing lockdowns, **Germany’s partial lockdown has been extended until December 20**. Restaurants, bars and other entertainment venues will have to remain closed, while schools and most businesses can remain open. In addition, social gatherings will be restricted to a maximum of five people from up to two households.
