Recent Developments

Global News

- **Australia** has delayed border reopening by two weeks, from December 1 to mid-December, after reporting its fifth case of the omicron variant.
- The **United Kingdom** has reinstated face mask mandates for public transport and shops in an effort to slow the spread of the omicron variant.
- **United States** President does not see the need for a lockdown to contain the spread of the omicron variant, if people are vaccinated and wear their masks.

Regional News

- **China’s** Foreign Ministry says the new omicron COVID-19 variant will pose challenges for prevention and control, but it believes the Winter Olympics will go smoothly. Beijing is set to host the Games from February 4, 2022 to February 20, 2022.
- **Korea** will set a six-month limit on its vaccination certificates beginning December 20, 2021 in a bid to encourage the public to obtain booster doses.
- **Japan** has reported its first case of the omicron variant, an imported case from Namibia. **Japan** has closed all borders to international travellers.
- The **Philippines** has suspended plans to allow entry to fully vaccinated foreign travelers from “green list” countries, where visas are not required. 7 European countries, which reported the presence of the omicron variant, have been added to its “red list”.
- **Indonesia** has imposed an entry ban on foreign travelers who have been in 10 African countries, and Hong Kong, due to concerns over the omicron variant. Returning Indonesian nationals from these economies will have to undergo a 14-day quarantine.

Vaccine News

- Pfizer-BioNTech, Moderna and Johnson & Johnson have announced that they are developing COVID-19 vaccines that specifically target the omicron variant.
- Gamaleya Institute announced it believes that the Sputnik V vaccine is effective against the omicron variant given its high efficacy against other mutations.
